EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Loree J. Kim on 10/17/07.

The application has been amended as follows:

Claims 1-14, 18 and 20-22 have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The closest prior art, Rabinowitz does not recite a device for generating aerosols comprising "capillary-sized flow passage" component and a capillary-sized flow passage in communication with the liquid aerosol formulation from the liquid supply as recited in the instant claims. Rabinowitz discloses a device comprising (or employing) a foil substrate which contains a thin layer of the medicament to be vaporized. The other prior art reference, Hodges also does not recite or lead one of ordinary skill in the art to a capillary-sized flow passage to volatilize a liquid component and form a vapor which exits from an outlet of the capillary-sized flow passage, contacting the vapor with a gaseous

medium so as to form an aerosol. Applicant's arguments regarding the obviousness type Double Patenting rejection over claims of co-pending Application 10/732,646 are persuasive and the said rejection has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
